

Transparency Statement – EU Data Act (Short Version)

Brand: Erisin

Product: Android Car Radio / Navigation System

Scope: All Erisin Android car radios (multiple ASINs)

Erisin Android car radios process data solely to provide intended device functions.

Data processed: usage and technical data, connection data (Wi-Fi, Bluetooth, CarPlay / Android Auto), and location data only when navigation is actively used.

Purpose: device operation, navigation and multimedia functions, and technical support upon user request.

Storage & sharing: data is mainly stored locally on the device. Erisin does not actively store or transmit personal data to third parties. Third-party apps are subject to their own privacy policies.

User control: permissions and stored data can be managed or deleted at any time via system settings.

Contact: the seller can be contacted via the Amazon platform.
