

EU Data Act Transparency Statement (Short Version)

Brand: Erisin

Product: Linux Car Radio / Navigation System

Valid for: All Erisin Linux car radios (multiple ASINs)

Erisin Linux car radios process data exclusively to provide the intended functions.

Data types: Usage and technical data, connection data (Bluetooth, CarPlay / Android Auto), and location data only when navigation is active.

Purpose: Device operation, navigation and multimedia functions, and technical support upon request.

Storage & sharing: Data is predominantly stored locally. Erisin does not actively store or transmit personal data to third parties. Third-party apps are subject to their own privacy policies.

User control: Permissions and data can be managed or deleted at any time in the system settings.

Contact: Via the Amazon platform.
